Community Workers are based in YOUR community and their role is to improve facilities and access to services near to where you live.

To improve the lives of families in your area these workers will help to facilitate change, enhance resilience in the community and empower families and communities to sustain a better quality of life for everyone.

When you are feeling stronger and want to make a difference, we can offer opportunities to volunteer to help others who may be suffering from similar problems to those that you experienced, and be active in your neighbourhood.
